Good morning Bill, I can't thank you enough for your help with this. I have forwarded all the information you provided. I sent a message to Cindy Caporale this morning as I did not realize I should have forwarded yesterday. I am missing question below. Did we send response? thx

3. Was EPA supplied a copy of the 2002 study (as part of the Safe Drinking Water Act) that identified Critical Zones of Concern? And do you have any recommendations for protections?

Region 3 Drinking Water Program responding

Linda; Regarding Q 9.

The attached file answers the question re whether MCHM is a long chain polymer. It is not. The question asked is whether MCHM contains a long chain polymer that might obscure the ability to detect other substances? Cindy might be better to address this aspect? Since its not I would guess the answer is no, but I would defer to the Chemists.

Bill
